1. A VP unit with six artillery pieces of about 100 mm caliber was unloaded at the Weisswasser (O 52/A 74) railroad station and moved to the Hochtzen (O 52/A 73) - Docksberg training area at the end of July 1950. The unit came from the direction of Goerlitz (O 52/B 00), presumably from Bautzen (O 52/A 60). Soviet artillery units were simultaneously unloaded at the station and also went to the same training area. \*

\* Comment. The Weisswasser training area has, for some time, been occupied by elements of the 9th Mocz Div, including the 692d How Arty Regt from Cottbus. Since it seems unlikely that the only VP artillery unit known in Land Saxony, namely the 3d VP Bereitschaft (Arty) in Leipzig, should have moved to Weisswasser, it is possible that the unit which arrived there was a hitherto unidentified VP Bereitschaft from Bautzen, where only a VP Grenz Bereitschaft has been known to date.
